BRÔLEURS VULCANIA

Cette brochure présente les brûleurs et bio cheminées Vulcania.

Le site www.bruleurs-vulcania.com vous donne plus de détails sur chaque produit et vous aide à comprendre et maîtriser le fonctionnement de la cheminée à l'éthanol. Avant toute mise en route, il est impératif de suivre les instructions consignées dans le mode d'emploi. Les conseils de sécurité sont à lire attentivement.

This brochure presents the full range of Vulcania bio-fireplaces and burners

To find out more about individual products – from bio-fireplaces to ethanol-fuelled burners – visit our site www.burners-vulcania.com

Before using any Vulcania products, it is essential to study the instructions provided in the user's guide. Please read the safety instructions with great care.

Este folleto presenta los quemadores y bio-chimeneas Vulcania.

Encontrará más detalles sobre dichos productos en la página Web www.burners-vulcania.com, donde podrá aprender a utilizar la chimenea de etanol.

Antes de su puesta en marcha, es obligatorio seguir las instrucciones del manual de usuario y leer atentamente los consejos de seguridad.

Questa brochure presenta i bruciatori e i biocaminetti Vulcania

Il sito www.burners-vulcania.com offre maggiori dettagli sui singoli prodotti ed aiuta a comprendere e gestire il funzionamento del caminetto all'etanolo.

Prima della messa in funzione, è assolutamente necessario seguire le istruzioni riportate nel manuale d'uso. I consigli di sicurezza vanno letti con attenzione.

В этой брошюре представлены горелки и биокамины Vulcania

На сайте www.burners-vulcania.com Вы сможете более подробно ознакомиться с каждым продуктом и узнать об особенностях работы камина на этаноле.

Перед началом эксплуатации необходимо обязательно выполнить требования инструкций, приведенных в руководстве по эксплуатации.

Особенно внимательно прочитайте рекомендации по безопасности.

VULCANIA

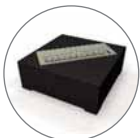

AN OPEN FIRE: TAKING THE THEME OF A COSY HOME ONE STEP INTO THE FUTURE

Now we can think about having an open fire without a chimney: the fireplace has once again taken center stage when designing home interiors.

Contemporary and stylish, the Vulcania bio-stove has been crafted with the greatest attention to detail and using high quality materials and original finishes. The result is a product range geared to satisfying the widest possible variety of tastes on behalf of our French and International clientele.

Vulcania bio-fireplaces and burners are manufactured in France in our factory near Paris. Our products carry a three-year warranty, and undergo stringent tests to ensure conformity with current security standards. Our production teams are at your disposal should you wish to commission a custom-built bio-fireplace.

You will find all the most recent product news, information about our company, and our marketing literature at the following site:

Burners

709

With a 1,5L capacity, this burner in brushed steel has a burning time of 4 - 5 hours depending on the trap setting chosen. Its heating capacity of 2.7 kW can increase room temperature by 5 - 6°C.

■ *Dimensions* : L.27 x P.10 x H.10 cm

710 711

With a 2,5L (711) or 5L (710) capacity, these two burners in brushed steel have a ventilated double wall for extra security. their heating capacity of 3.7 kW can increase room temperature by 6 - 8°C. burning time : of 5-6 hours (711) / of 10 - 12 hours (710) depending on the trap setting chosen.

■ *Dimensions* : L.35 x P.21 x H.12 cm

706

With a 2L capacity, this burner in brushed steel has a ventilated double wall for extra security. Its heating capacity of 3.3 kW can increase room temperature by 6 - 8°C, and has a burning time of 6 - 7 hours depending on the trap setting chosen.

■ *Dimensions* : L.26 x P.16 x H.11 cm

707

Model 707 offers all the pleasure of an open wood fire without the inconvenience of a traditional fireplace. It has a more rustic look, and incorporates real logs protected by a metal surround. The burner is in the centre, and to perfect the illusion, ceramic logs can be safely placed on the flames, without generating smells or smoke. Runs on all vulcania burners (1,5L/2L/2,5L/5L)

■ *Dimensions* :
L.26 x P.35 x H.20 cm

701 702

With a 5L capacity, this burner in brushed steel is available in two sizes:

■ *Dimensions réf. 701* :
L.80 x P.24 x H.11 cm
(flame length: 70 cm)

■ *Dimensions réf. 702* :
L.70 x P.24 x H.11 cm
(flame length 60 cm)

Its heating capacity of 3,9kW can increase room temperature by 6 - 10°C.

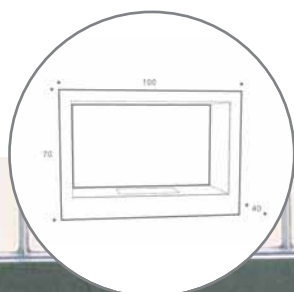

■ *Burning time* : 7h

721

Model 721 is ultra-flexible, being easy to transport and move around on inbuilt castors. Open sided, it runs on a 5L Vulcania burner, and has a lacquer finish.

An optional fireguard in toughened glass is available for extra security.

■ *Dimensions : 100 x 40 x 70 cm*

04

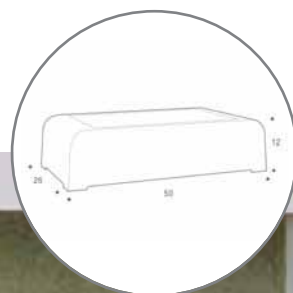

715

The charm and simplicity of this compact portable fireplace make it an attractive focus for any occasion, a decorative item in itself, but also generating warmth and comfort. Runs on a 5L Vulcania burner.

■ *Dimensions : 48,5 x 26 x 12 cm*

05

612

Open on both sides, this fireplace is ideally placed in a spacious room to provide high level visibility, with flames to view from all angles.

Compatible with 1,5L, 2,5L, and 5L Vulcania burners.

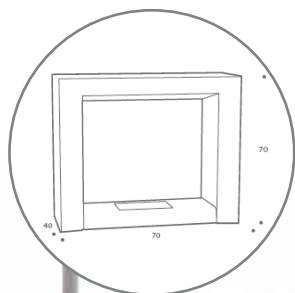

The stove is finished in black or white lacquer over a base coat of brushed steel.

■ For extra security, an optional fireguard in toughened glass is also available

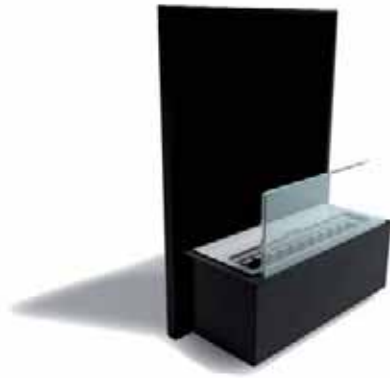

■ *Dimensions : 70 x 40 x 70 cm*

06

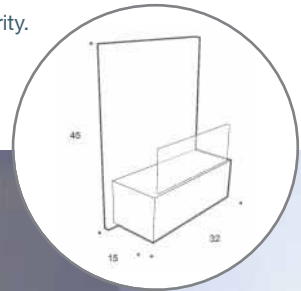

803

This wall-mounted mini-fireplace has pure and minimalist lines. The block has a satin mat paint finish, while the wall-mounting plate takes on a colour at high temperatures. Running on a 1,5L Vulcania burner (2,8 Watt / 4-5 hours burning time) with a regulating trap to adjust the heat setting.

- An optional fire guard in toughened glass is available for extra security.
- *Dimensions : 32 x 15 x 45 cm*

07

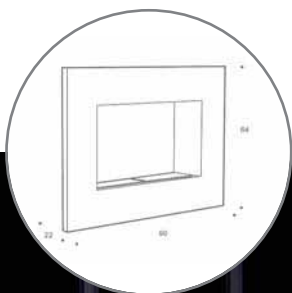

713

Built-in to the wall or mounted against it, this elegant model will bring life to the room! The frame is in steel or heat-resistant black paint. A range of colours is available for the frame. This model runs on two Vulcania 1,5L burners fitted with regulating traps.

■ An optional fireguard in toughened glass is available for extra security. (ref 723).

■ *Dimensions : 100 x 22 x 64 cm*

08

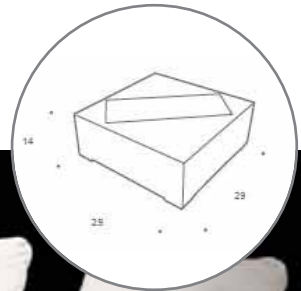

802

The main advantage of this model is its versatility: it can be moved around and used anywhere: on a table, on the floor, free-standing in a traditional fireplace, or even outside. It runs with a 1,5L Vulcania burner fitted with a regulating trap for adjusting the heat setting. Satin lacquer finish.

■ *Dimensions : 29 x 29 x 14 cm*

09

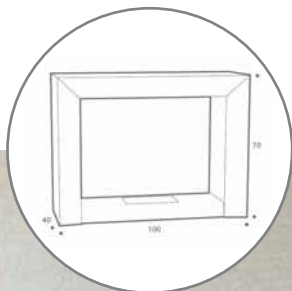

712

This transportable module is stylish, simple, and offers a truly modern vision of an open fire. It is fitted with castors so it can be easily moved around and runs on a 5L Vulcania burner. Lacquer or Wenge (dark brown African wood) finish.

- An optional fireguard in toughened glass is available for extra security.
- *Dimensions : 100 x 40 x 70 cm*

10

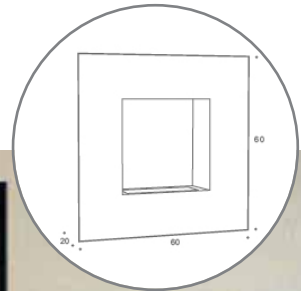

618

Fixed to the wall or built-in, Model 618 offers both practical and esthetic advantages. It is made in steel, has a satin lacquer finish, and runs on a 1,5L burner.

■ For extra security, an optional fireguard in toughened glass is also available.

■ *Dimensions : 60 x 22 x 60 cm*

825

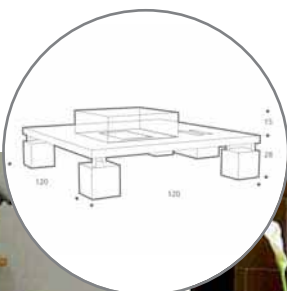

Dark brown wood combined with a metallic finish characterise this low table fitted with a transparent fireplace. Sober in style, this model will blend in with a range of individual styles. An elegant fireguard in toughened glass surrounds the flame, so objects can be placed on the surround without risk. This model runs on a 5L Vulcania burner. Wenge (dark brown African wood) finish.

Design de H el ene Clemmer-Heidsieck

■ *Dimensions : 120 x 120 x 28 cm*

12

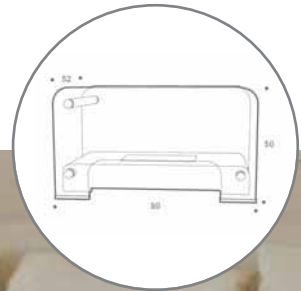

732

Transparent on all sides with parallel panes, this lounge model is an item with instant appeal while offering esthetic and functional comfort. It is equipped with a 5L Vulcania burner, and has a shiny lacquer or leather finish.

■ *Dimensions : 90 x 52 x 50 cm*

13

714

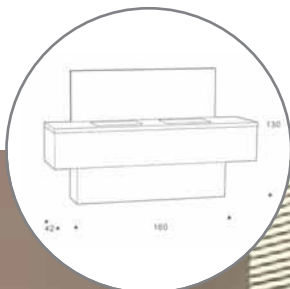

This low-lying rectangular table fire can be set in the middle of a three-piece suite or another arrangement of sofas. The burners are contained beneath the table surface, with two flames together radiating warmth and a sense of refinement. If a longer length of table space is required, a single burner can be placed at the extremity of the table. Satin lacquer or custom finish to order. Customised installations may be ordered as required.

■ An optional fireguard in toughened glass is available for extra security. Runs on one or two 5L Vulcania burners.

■ *Dimensions : 160 x 41 x 98 cm (with inox panels)*

14

821

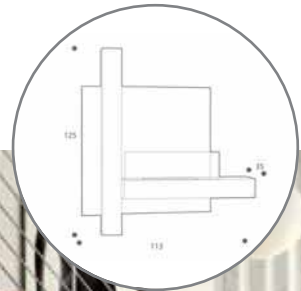

This wall-mounted model has simple lines and a contemporary style making an exciting centrepiece feature, while offering the look and feel of a real fire. It can be set in a wall at average height to enhance the decor and provide a convivial focus.

Satin lacquer finish on an aluminium paint base.

Runs on a 5L Vulcania burner.

Design de H el ene Clemmer-Heidsieck

■ *Dimensions : 113 x 35 x 125 cm*

15

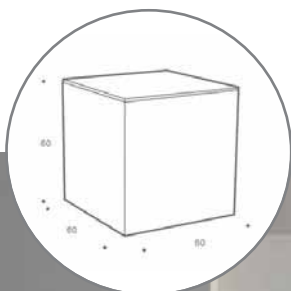

801

The Cube stands out as a highly original fireplace, and can be easily assimilated in any open space. When closed, the fireplace blends into its surroundings, and at a moment's notice it can be transformed into an open fire.

It is available in three styles, with a leather or satin lacquer finish. The fireplace runs on a 5L Vulcania burner.

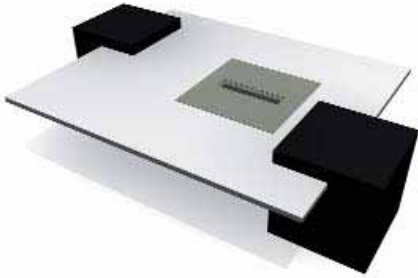

■ *Dimensions : 60 x 60 x 60 cm*

16

826

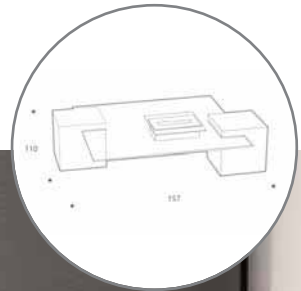

This low table is classical in its lines, with two cubes supporting a metallic table top, the dimensions of which can be built to order. The materials offer satisfying contrasts between shapes and colours. Different finishes are available for the table top and the supporting cube 'feet': satin finish metallic paint or gloss painted wood. A clear glass version of the table-top is also available.

A 5L Vulcania® burner is embedded at the centre of the table-top. An optional fireguard in toughened glass is available for extra security. Vulcania® burners

Design de H el ene Clemmer-Heidsieck

■ *Dimensions : 110 x 157 x 57 cm*
